Zoologie, Myths

*I'm a Game Programmer Graduate
I'm curious and I like to learn new process*

Skills

Languages

- C++
- C#
- Blueprint
- Python

Social

- I know how to **search** solutions
- I like a **clean** code architectures
- I'm used to **work with artists and designers** as well as programmers

Softwares

- Unreal Engine 4
- Unity (Certified Associate)
- Github/SVN
- Other Engines (GMStudio, Construct, RPGMaker, Fusion2.5)

Main Activities

- Tool Design
- Gameplay Programming
- System Programming
- Game Design

Projects

Les Chroniques de Volarela

Point&Click - PC - 2020

CrossQuest Studio - France - Freelance - Team of 7

Unity C# - Tool Designer, Manager

- Creation of a complete and adapted dialogue tool for Unity
- I had an intern in charge and I had to teach him the bases of tool design in unity while working with him.
- I created a lot of extension methods and little tools to smooth the workflow

Tough Kookie

Beat Them'up - PC - 2019/2020

Rubika 5th year - School Project - Team of 8

UE4 C++ - Head Programmer, Tool Designer

- I communicated with everyone on the team and established tools or new BP nodes to accelerate the workflow.
- I researched how UE did its features and modifies some of them to have an engine that fits to our project
- I was in charge of the hierarchy of the project and had to manage the other group member to make sure everyone respects it
- I coded features of the project, like the unfortunately cutted Level Editor feature

Detox/The Wanderer

Platformer/Narrative - PC - 2019

La Belle Games - France - Internship - Team of 10

Unity C# - Tool Designer

- Creation of an executable Level Editor outside of the engine
- Creation of tool to ease the integration and debugging
